# NEW MEGADORA IMPACTA

PAT.

# Revolutionary

Tang-thru screwdriver with built-in  
impact driven screw removal function

✓ "Stripped screws"

✓ "Rusted screws"

✓ "Stuck screws"

Only IMPACTA can do!

Impact Force  
into Rotation

Even if the screw  
head is stripped,

**"IMPACTA"**  
can remove it  
instantly!!

MADE IN JAPAN

# Hit IMPACTA with a hammer to loosen the stuck screw!!

## Cam rotation mechanism

Our proprietary Tang-Thru nut incorporates cam rotation mechanism, which turns the driving tip counter-clockwise by 12 degrees when the handle is hit with a hammer. IMPACTA leverages impact acceleration to remove stuck screws.

**Slip-proof handle!!**

**Non-Slip**

Non-slip surface secures a firm grip even when your hands are covered with oil.

When used with oil-covered hands, tightening torque becomes 26% higher with "MEGADORA IMPACTA" than with other normal screwdrivers. Non-slip surface makes the difference.

**Please consult !**

No. **S-980/S-983** MEGADORA IMPACTA Patented

**MG** Magnetized **Eco-friendly**

- Tang-Thru nut with cam rotation mechanism.
- Fully hardened chrome vanadium steel shank.
- Black point tip is processed with high precision.

Do not use this product to remove screws on materials that could be damaged or distorted, such as aluminum and thin sheet metal.

Choose a right screwdriver for your screw. The wrong size screwdriver may damage the screw hole.
