“RAINBALL” L-Wrenches **NEW!**

Colour-coded L-wrenches

for easy pick-up!

“UltraBall” Extra Durability and Unique Ball Head Configuration to protect from damaging screws

UltraHex

Proprietary UltraHex Patented.

With a short hand

making it possible to
insert a screw in narrow spaces

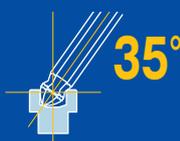

UltraBall

MADE IN JAPAN

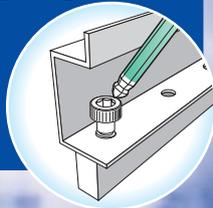

FEATURES

ONE

Max. 35°!
Available!!

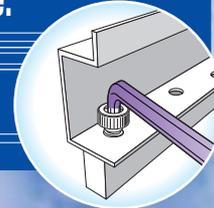

35°

TWO

Extra Short length of Driving advantages Wider application of limited space.

Rainball

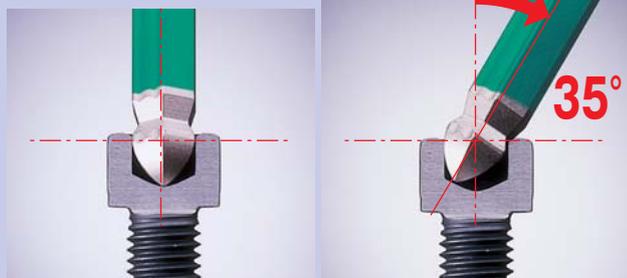

Made of severely-selected material of steel by optimum thermal processes, the strength against tip breakage has considerably increased. This "RainBall" wrench meets the torque resistance requirement set under JIS standards.

Rainball

Quick & smooth wrenching

UltraBall®

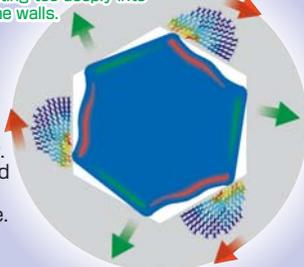

The driving part of "RainBall" is designed to fit the hex hole at a high position, making it possible to tighten screws at a 35-degree angle. The pointed tip becomes the center of smooth power rotation.

Superior efficiency in torque transmission

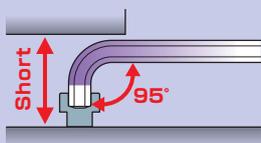

The flat sides keep the waved sides from biting too deeply into the walls. The waved sides catch the hex walls.

Radius part of this unique "UltraHex" bites Hex screw A/F to thrust for turning power. Automatically this unsurpassed driving mechanism controls smooth and high driving torque.

Short-hand design for wider application at limited space

95° short hand gives easier operations. Ideal for tightening screws at a narrow space.

9PC set offers you with open-folded holder.

No.8800BP "RAINBALL" L-wrenches

MG Magnetized

- Easy to spot in a tool box as they are colour-coded.
- Long-sized for high-leverage wrenching. ● Short-hand for wrenching in tight spaces.
- 95° short hand gives easier operations.
